February 2018

2016 -2018 President Home Builders Association

With the start of any new year brings the hope that we might improve on the past and create a better future for ourselves, our families and our perspective businesses. History has taught each of us is that our industry is faced with many challenges. However with unity, education, hard work and resolve we will be prepared to face uncertain times and a more efficient means of operating our businesses. The Home Building Industry creates jobs. Homes are still "MADE IN THE USA ", don't take that for granted. Not only will our industry continue to survive, but it will flourish as history has proven.

I would like to thank all of the board members, and anyone who served on a committee, it has been a lot of fun and I look forward to the upcoming year. When I started on this board almost 6 years ago I never thought I would be President, serve 2 years as your President and I certainly took the position with much hesitation. You all have been very supportive and through the association with fellow members I have made lasting friendships. My business has grown and I have learned a lot through service to this Association of fine people. Thank you!

I truly believe there is no price too great for the value that a membership in this fellowship of those who serve the American Dream of Home Ownership. I also invite and encourage everyone to get more involved some way. We have many talented members whose contribution could significantly strengthen the HBA.

This year starts with many opportunities to get involved already. I invite each of you to our Board Induction/Membership meeting on Feb 15th. This is a special night to honor those who have served you and support the new board. These individuals give so much of their time so I hope each of you will give an hour or so for them.

One Vision....One Voice

Wesley Johnson
