We started out the new year with a great membership meeting. We would like to thank Gregg Robinson, CEO of The Florence County Economic Development Partnership for coming and speaking to us. Gregg spoke on the industrial development coming into the county, bringing with it an abundance of new opportunities including higher paying jobs and educational growth. He noted that Florence has many positive qualities that will attract new businesses and

stated that in order for a community to grow economically infrastructure is key. He also touched on family being the core in Florence County and how that resonates with prospective manufactures.

New incoming businesses and jobs will also bring incoming families. What do families need? They need homes! What do we do? We build homes! We are very excited for 2023 and what it has in store for our local industry! Florence is growing fast! Let's get to work and
